PRESENTATION

IBERDATA is a distributor of medical and hospital equipment, clinical solutions and hospital maintenance supplier in the Portuguese market since 1987. The company is now integrated in IBERMAN SA (of GEE Group).

The activity of IBERDATA and IBERMAN SA extends respectively to Continental Portugal and the Portuguese islands (Azores and Madeira), and Spain, Poland, Africa and South America.

IBERDATA's headquarters are located in Amadora (Lisbon), and the North Delegation in Maia (Porto).

The equipment sales activity focuses mainly on the areas of the Operating Theatre, Intensive and Intermediate Care, Emergency and Imaging.

With a strong orientation towards client satisfaction, and supported by a team of qualified professionals, IBERDATA privileges consulting, implementation, training and after sales support to the equipment and infrastructures of the Portuguese healthcare institutions. The partnerships established with clients through more than 30 years of activity, have ensured the company is recognised for the quality of the service it provides and has guaranteed a solid position in the market.

VISION:

To position Iberdata as the reference provider of "Life Solutions" to Healthcare Institutions.

MISSION:

To provide solutions adapted to the needs of the Healthcare Institutions, by offering better means of diagnosis and treatment combined with comfort, ergonomics and safety for users;

To provide technical and commercial services with professionalism and dedication, seeking to exceed customer expectations.

The following is a summary of our medical equipment sales line*.
