

# Merivaara 4242 Examination Table

Examination table 4242 is designed especially for gynaecological examinations and minor procedures but it is suitable also for general medical examinations. Both electrical and mechanical adjustments are available for this compact examination table which combines ease of use with a practical design and ergonomic functions. Two-part surface can be extended into 3-sectional.

The table features a pair of heel supports and clamps (or a pair of knee supports), accessory rails, bowl and a paper roll holder. Both electric and hydraulic model have central locking Ø150 mm castor. Electric model features a hand control and an optional foot control.

The examination table 4242 is now available with an antibacterial option. Antibacterial coating reduces bacterial growth and the risk of infections. Frame and upper holstery color is antibacterial light grey.
