

# Merivaara Carena Machine Washable Bed

Revolutionary and popular Carena hospital bed has all the features required by healthcare professionals, both from the point of view of ergonomics and patient safety. The popular Carena hospital is now available also as a machine washable model.

The new special Carena model is suitable for the demanding conditions imposed by machine washing. Additionally, its antibacterial coating reduces bacterial growth on the frame. Therefore, Carena is an ideal choice both in primary care and ER and in long-term care. The machine washable Carena hospital bed complies with standard EN 60601-2-52 on medical beds, and it meets the criteria of section 201.11.6.6.101 on "Machine washable medical bed".

The corrosion protection of the bed frame prevents rusting. The ingress protection class of the washable Carena is IP66W, which indicates improved encapsulation of the electrical components. Furthermore, twin castors improve the maneuverability of the bed.

## Main features:

1. Best-in-class ergonomics for patients and staff
2. Simultaneous movements of different parts
3. Safe working load (SWL) 330 kg

## The range:

- 4-part bed section (205 X 80/90 cm), with electrical height, back and leg section adjustment. Calf section adjustment is assisted by gas spring. Trendelenburg and Anti-Trendelenburg are both manual and electric.
